1. About us

Fast force Africa Trading & Projects is a multi-disciplinary firm which offers professional services to the public and private sector. As a dynamic organization we are focused on controlled growth and the development of the knowledge and skills of our employees.

We specialize in Mechanical, Welding, Fabrication and the Manufacturing of pipe line, Structure, Boiler, Tanks, Silos, Pressure vessels, Dryers, Hopper (Power Station, Refineries, Sugar Mill, Paper mill, Fertilizer), In the execution of our services our focus is on:

- Clients
- Employees
- Communities
- Quality
- Safety

2. Our Vision

We provide professional services in identifying and implementing engineering projects for medium to large clients”

3. Our Mission

As a dynamic organization we are focused on controlled growth and the development of the knowledge and skills of our employees.

We support the principles of affirmative action and strive to create real opportunities for underprivileged South Africans. In the execution of our services.

4. Why Choose Us!

We always deliver on time; We genuinely understand the value of time in business and hence adhere to time and deliver all projects on time to our clients, Management aims to be accessible and available to all employees to ensure a goal orientated team. Fast force Africa Trading & Projects reflect an image of success, efficiency and productivity

5. Safety, Health & Environmental Policy

Fast force Africa Trading & Projects, Safety & Environmental (HSE) Management Policy is designed to integrate the management of HSE practices into one program that embraces a project or activity from beginning to end and is consistent throughout the company. The use of an integrated, consistent company-wide approach has provided efficiencies in the execution of work, a competitive advantage to clients through reliability and reduced risk, improved tracking of HSE

performance measures that indicate the manner in which the company is managing its HSE impacts and greater opportunities to provide innovative solutions to HSE challenges.

We will continue to be proactive in providing value-added services to clients, as well as contributing to a safe, secure and sustainable quality of life for our employees and for the communities in which work.

We will:

- ❖ Be a responsible member of society committed to continuous improvement in HSE
- ❖ Provide a safe and healthy work environment for all our employees
- ❖ Reduce our environmental impact and optimize the use of natural resources
- ❖ Meet or exceed regulations, legal requirements and international agreements
- ❖ Ensure HSE considerations are integrated into all our activities
- ❖ Develop a culture that encourages employees to take personal responsibility for HSE
- ❖ Openly communicate our HSE performance and enter into dialogue with interested parties
- ❖ Eliminate all incidents and injuries.

6. Development & Training

Fast force Africa Trading & Projects has committed in the development needs of its employees, and is registered with the MerSeta in Vanderbijlpark – Gauteng. Supporters of the National Skills Development Strategy in Gauteng. We at present are running Section programs, Apprentices – Boilermaker & Turners - programs and we are continually striving for ways to develop and upgrade our employees.

7. Employment Equity – EE

Fast force Africa Trading & Projects is registered with the Department of Labour. All information regarding our registration can be seen at our office.

8. Quality Control

We have a fully qualified Quality Control Department (QCP) – working in accordance with the latest ISO rating and guidelines. This is done independently or within the client requirements / guide lines.

All our fabrication / manufacture codes / welding codes, or any other specification that requires a third-party certificate or inspectorate, an independent third party is called in or the client's Inspectorate is used.

9. Services

- Mechanical engineering
- Welding
- Manufacturing
- Structure
- Boiler & Tanks
- Project Management

We specialize in Mechanical, Welding, Fabrication and the Manufacturing of pipe line, Structure, Boiler, Tanks, Silos, Pressure vessels, Dryers, Hopper (Power Station, Refineries, Sugar Mill, Paper mill, Fertilizer)

❖ Mechanical Engineering

Fast Force Africa Trading understands your needs because we understand the challenges which designing for wear and tear, durability, reliability, life-cycle cost management and tampering.

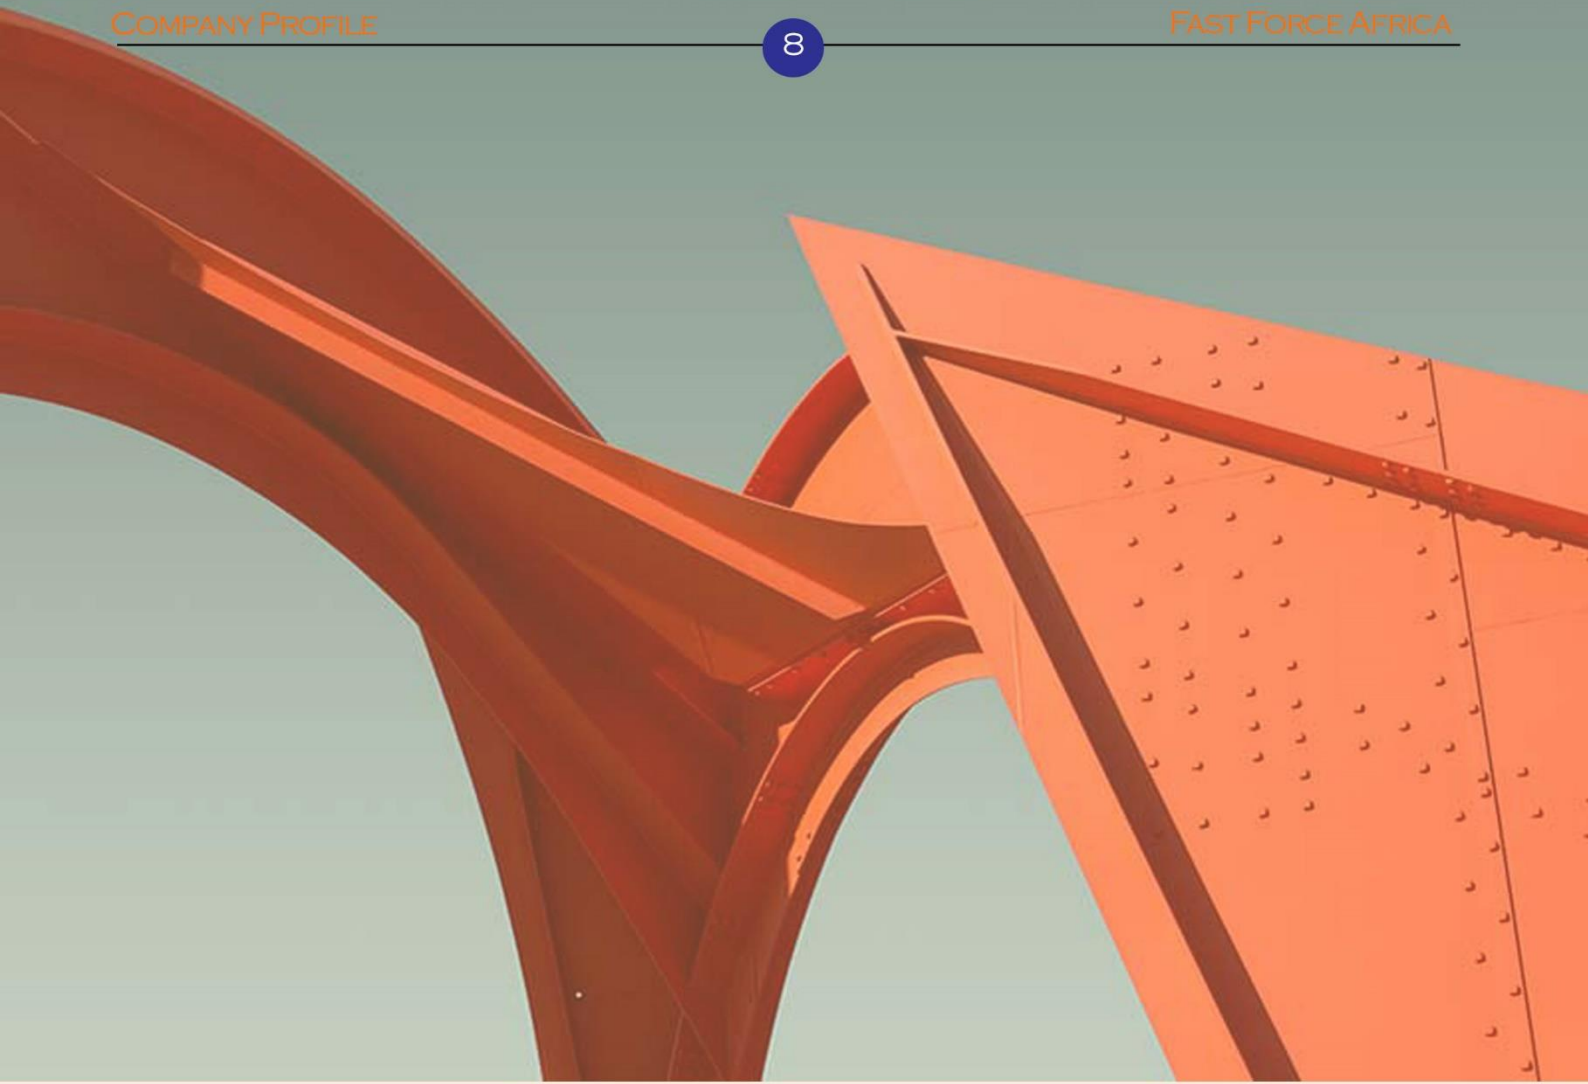

That we are able to connect every stage of the mechanical design process through a single digital model, enabling our team to optimise all mechanical designs before production.

❖ Structural Engineering

We Specialize in Steel structure design, fabrication, supply and installation, for the past 10 years Fast Force Africa, we stand by the excellence of our work and provide clients with personalized attention based on their specific needs. If you're looking for innovative design, do get in touch with us

- Steel Structural Design
- Structural Steel Fabrication
- Metal Building Installation
- Infrastructure
- Mining Infrastructure

❖ **Welding**

With a Global partnership with the world's leading welding companies enable us to deliver the highest quality products in the market at extremely competitive prices, all backed by a committed, hard-working and experienced team of professionals. We specialize in manufacturing and welding of various special materials such as:

- Stainless steel
- Carbon steel
- Aluminums
- Titanium
- Hastelloy
- Copper Nickel Cu/Ni
- Carbon / Alloy Steel
- Nickel Cast Iron
- Chrome Moly Alloy Heater Tubes

❖ **Types of welding**

- TIG welding on different position 2G to 6G
- ARC welding on different position 2G to 6G
- Brazing on different position various Materials
- Flux core welding different position on different material
- MIG on different position on different material

❖ **Manufacturing Engineering**

With more than 30 years' experience in pipe manufacturing, supply and installation across Africa. Fast Force Africa Trading is a South African based Company that provides an impeccable thus cost-effective Pipe Manufacturer and Supplier service to an international market. As leaders in the industry, we tailor our services to meet your needs. Whether it is a small welding solution or a major industrial contract, FFA will utilize all possible resources to ensure a quick and effective result

- Pipe & Fittings Services
- Lined Pipe Systems
- Structural steel tubes
- Spiral welded steel pipes
- Mechanical steel tubes
- Petro Chemical
- Marine
- Manufacturing and Fabrication

❖ Boiler & Tanks

We manufacture, preserved and repairing boilers, Pressure vessels, heat exchangers, waste heat boilers, thermopack boilers, hot air generator, and its accessories,

We are pioneer as steam boiler manufacturer and there are about 500 boilers are in operating at present. We are in boiler manufacturer field for 10 years and known as leading boiler manufacturer in market. The boiler manufactured by us is working satisfactory without any single accident or damage.

- Steam boiler manufacturing
- FBC firing system type boilers
- Waste heat boilers
- Thermic fluid heater & Hot air generators

- Hot water boilers
- Co-generation plant
- Boiler for power plant
- Pressure vessels and heat exchanger
- Vam manufacturing and supply

We proved durability, efficiency and satisfaction of our product. This is the reason by which we are in heart of various industries in such competitive market.

We also introduce energy saving work in various industries. We design, fabricate, erect and commission complete boiler plants including H.P. steam pipe line.

10. Recent Projects

➤ RCL foods

- Refurbish Scalding Juice Heater
- Sugar bin structure repair & mechanical
- Piping Construction Work on Evaporators
- Steam Piping, Install Steam Drum Internals and Safety Valves
- Overhaul Rota Filters
- Remove Old and Install New Press Water Tank

➤ SAPPI (Sterling Profiles)

- Pressure vessel inspection and hydro testing
- Modification of iv access platform to paddle levels
- White liquor underflow piping fabrication and installation
- Repulpers structure fabrication and installation
- Lime kiln maintenance and repair
- Gas plant maintenance and repair

➤ MMC

- A-calciner breakdown shut
- Tube replacement
- Maintenance work replace drive side tube, weld cracks and gear boxes replace
- Timber Ranch
- Built a door factory

11. Future

We have reached our goal of growing into a medium sized engineering and steel merchant enterprise, never too large to recognize the needs of our smallest customer. We look forward to continuing providing a quality service to all our customers, and to the challenge of providing in all their engineering and steel supply needs in an ever evolving environment.
